

I had a good day at US-1847 on 05-25-26 Collier-Seminole State Park, Everglades.

VK6KN was a P2P to me that counted as 4 parks on his end, 20 M SSB

I have operated from that park 251 times, but that was a great contact.

Because of heat and the bugs, I had a magmount, 17ft whip, WRC, just doing a quick set up
.....heat index is over 100 this week

POTA makes everyday and adventure.....Gerry KB1NNH Cheers
